Lack Of Unity Election

The election requirement is made in accordance with 37 CFR 1.499.

Group I: Claim 1, directed to a product yarn.

Group II: Claims 2-4, directed to a process of making polyamide 6.

On one hand, Lack of Unity exist because the process of making the polyamide 6 composition of group I is not specially adapted (there is no extruding etc of the composition to make a yarn) for making a product yarn of group I. On the other hand, the special technical feature of (STF) is the 1.5 to 2.5 % Titanium dioxide in and amount of 35 to 95%. The forgoing STF is no present in group I. Hence, Lack of Unity is held by the Examiner in accordance with PCT rule 13 and 37 CFR 1.475.
